

# SAFETY DATA SHEET Linx Green mixed base ink 3124

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name Linx Green mixed base ink 3124

Product number 3124

# 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Printing ink.

# 1.3. Details of the supplier of the safety data sheet

Supplier Linx Printing Technologies Ltd

Linx House

8 Stocks Bridge Way

Compass Point Business Park

ST IVES

Cambridgeshire PE27 5JL

UK

T: +44 (0)1480 302100 Mon-Fri 9am-5pm

F: +44 (0)1480 302116

 $\hbox{E-mail: SDS@Linx.co.uk Web: www.linxglobal.com}$ 

# 1.4. Emergency telephone number

**Emergency telephone** 24HR: (+1)-352-323-3500; USA 1-800-535-5053

#### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

# Classification (EC 1272/2008)

Physical hazards Flam. Liq. 2 - H225

**Health hazards** Eye Irrit. 2 - H319 Skin Sens. 1 - H317 STOT SE 3 - H336

**Environmental hazards** Aquatic Chronic 3 - H412

# 2.2. Label elements

#### Hazard pictograms

Signal word Danger

Hazard statements H225 Highly flammable liquid and vapour.

H319 Causes serious eye irritation.

H317 May cause an allergic skin reaction. H336 May cause drowsiness or dizziness.

H412 Harmful to aquatic life with long lasting effects.

#### Linx Green mixed base ink 3124

Precautionary statements P210

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No

smoking.

P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

P313 Get medical advice/ attention.

P501 Dispose of contents/ container in accordance with national regulations.

Supplemental label information

statements

EUH066 Repeated exposure may cause skin dryness or cracking.

Contains acetone, ROSIN, FUMARATED

Supplementary precautionary

P240 Ground and bond container and receiving equipment.

P241 Use explosion-proof electrical equipment.

P242 Use non-sparking tools.

P243 Take action to prevent static discharges.

P261 Avoid breathing vapour/ spray.

P264 Wash contaminated skin thoroughly after handling.

P272 Contaminated work clothing should not be allowed out of the workplace.

P273 Avoid release to the environment.

P302+P352 IF ON SKIN: Wash with plenty of water.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing.

Rinse skin with water or shower.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P312 Call a POISON CENTRE/doctor if you feel unwell. P321 Specific treatment (see medical advice on this label).

P333+P313 If skin irritation or rash occurs: Get medical advice/ attention.

P337+P313 If eye irritation persists: Get medical advice/ attention. P362+P364 Take off contaminated clothing and wash it before reuse.

P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

P403+P235 Store in a well-ventilated place. Keep cool.

P405 Store locked up.

# 2.3. Other hazards

None known.

#### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

ACETONE 40-60%

CAS number: 67-64-1 EC number: 200-662-2 REACH registration number: 01-

The full text for all hazard statements is displayed in Section 16.

# SECTION 4: First aid measures

# 4.1. Description of first aid measures

General information Get medical attention if any discomfort continues. Never give anything by mouth to an

unconscious person.

**Inhalation** Move affected person to fresh air at once. If breathing stops, provide artificial respiration.

Keep affected person warm and at rest. Get medical attention immediately.

**Ingestion** Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink.

Never give anything by mouth to an unconscious person. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention

immediately.

Skin contact Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical

attention if irritation persists after washing.

Eye contact Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15

minutes and get medical attention.

# 4.2. Most important symptoms and effects, both acute and delayed

General information The severity of the symptoms described will vary dependent on the concentration and the

length of exposure. See Section 11 for additional information on health hazards.

Inhalation Vapours may cause headache, fatigue, dizziness and nausea. Irritation of nose, throat and

airway.

**Ingestion** May cause stomach pain or vomiting.

**Skin contact** Prolonged contact may cause redness, irritation and dry skin.

#### Linx Green mixed base ink 3124

**Eye contact** May cause temporary eye irritation.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes for the doctor If in doubt, get medical attention promptly. Treat symptomatically.

#### SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media Extinguish with the following media: Alcohol-resistant foam. Carbon dioxide (CO2). Water

spray, fog or mist. Powder.

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

# 5.2. Special hazards arising from the substance or mixture

Specific hazards The product is highly flammable. Vapours may form explosive mixtures with air. Vapours are

heavier than air and may spread near ground and travel a considerable distance to a source

of ignition and flash back.

Hazardous combustion

products

Oxides of carbon. Oxides of nitrogen.

#### 5.3. Advice for firefighters

Protective actions during

firefighting

Control run-off water by containing and keeping it out of sewers and watercourses. Containers

close to fire should be removed or cooled with water.

Special protective equipment

for firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective

clothing.

# SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions** Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation

of vapours. Provide adequate ventilation. Use suitable respiratory protection if ventilation is

inadequate.

#### 6.2. Environmental precautions

**Environmental precautions** Do not discharge into drains or watercourses or onto the ground. Use appropriate

containment to avoid environmental contamination.

#### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near

spillage. Provide adequate ventilation. Small Spillages: Wipe up with an absorbent cloth and dispose of waste safely. Large Spillages: Contain and absorb spillage with sand, earth or other non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Collect and place in suitable waste

disposal containers and seal securely.

#### 6.4. Reference to other sections

**Reference to other sections** For personal protection, see Section 8. For waste disposal, see Section 13.

## SECTION 7: Handling and storage

# 7.1. Precautions for safe handling

#### Linx Green mixed base ink 3124

Usage precautions Keep away from heat, sparks and open flame. Static electricity and formation of sparks must

be prevented. Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation.

Avoid inhalation of vapours. Use approved respirator if air contamination is above an

acceptable level. Vapours may accumulate on the floor and in low-lying areas. Contaminated

rags and cloths must be put in fireproof containers for disposal.

### 7.2. Conditions for safe storage, including any incompatibilities

Storage precautions Keep away from oxidising materials, heat and flames. Store in tightly-closed, original

container in a dry, cool and well-ventilated place.

Storage class Flammable liquid storage.

7.3. Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.2.

#### SECTION 8: Exposure controls/Personal protection

### 8.1. Control parameters

#### Occupational exposure limits

#### **ACETONE**

Long-term exposure limit (8-hour TWA): WEL 500 ppm 1210 mg/m<sup>3</sup> Short-term exposure limit (15-minute): WEL 1500 ppm 3620 mg/m<sup>3</sup>

#### **ETHANOL**

Long-term exposure limit (8-hour TWA): WEL 1000 ppm 1920 mg/m<sup>3</sup>

WEL = Workplace Exposure Limit

# **ACETONE (CAS: 67-64-1)**

**DNEL** Workers - Dermal; Long term : 186 mg/kg/day

Workers - Inhalation; Short term: 2420 mg/m³ Workers - Inhalation; Long term: 1210 mg/m³

Sediment (Freshwater); 3.6 mg/kg

Soil; 0.63 mg/kg

### 8.2. Exposure controls

#### Linx Green mixed base ink 3124

### Protective equipment

Appropriate engineering

controls

Provide adequate ventilation. Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection Wear chemical splash goggles.

Hand protection Chemical-resistant, impervious gloves complying with an approved standard should be worn if

> a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with European Standard EN374. For exposure up to 4 hours, wear gloves made of the following material: Butyl rubber. It should be noted that liquid may penetrate the gloves. Frequent changes are recommended. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the

breakthrough time of the glove material.

Other skin and body

protection

Wear appropriate clothing to prevent any possibility of skin contact.

Hygiene measures Use engineering controls to reduce air contamination to permissible exposure level. Do not

smoke in work area. Wash at the end of each work shift and before eating, smoking and using

the toilet. When using do not eat, drink or smoke.

No specific recommendations. Respiratory protection must be used if the airborne Respiratory protection

contamination exceeds the recommended occupational exposure limit. Wear a respirator fitted

with the following cartridge: Gas filter, type AX.

**Environmental exposure** 

controls

Colour

pН

Emissions from ventilation or work process equipment should be checked to ensure they

comply with the requirements of environmental protection legislation.

# SECTION 9: Physical and chemical properties

# 9.1. Information on basic physical and chemical properties

Green

**Appearance** Liquid.

Odour Characteristic. Odour threshold Not available. Not available.

-95°C Melting point

56 - 78°C @ 760 mm Hg Initial boiling point and range

Flash point -18°C Closed cup. **Evaporation rate** > BuAc (BuAc=1)

Flammability (solid, gas) Not available.

Upper/lower flammability or

explosive limits

Lower flammable/explosive limit: 2.5 (%v/v) Upper flammable/explosive limit: 19 (%v/v)

185 mmHg @ 20°C Vapour pressure

Vapour density 2.0

Relative density 0.82 - 0.96 @ 25°C

# Linx Green mixed base ink 3124

Solubility(ies) Slightly soluble in water.

Partition coefficient log Pow: -0.24 Information given is applicable to the major ingredient.

Auto-ignition temperature 365°C

**Decomposition Temperature** Not available.

Viscosity 2 - 5 mPa s @ 25°C

**Explosive properties** Not considered to be explosive.

Oxidising properties Does not meet the criteria for classification as oxidising.

9.2. Other information

Volatility Volatile.

# SECTION 10: Stability and reactivity

#### 10.1. Reactivity

**Reactivity** There are no known reactivity hazards associated with this product.

10.2. Chemical stability

Stability Stable at normal ambient temperatures.

#### 10.3. Possibility of hazardous reactions

Possibility of hazardous

reactions

Will not polymerise.

10.4. Conditions to avoid

Conditions to avoid Avoid heat, flames and other sources of ignition.

10.5. Incompatible materials

Materials to avoid Strong acids. Strong alkalis. Strong oxidising agents. Strong reducing agents.

# 10.6. Hazardous decomposition products

Hazardous decomposition

products

Does not decompose when used and stored as recommended.

#### SECTION 11: Toxicological information

# 11.1. Information on toxicological effects

Acute toxicity - oral

Notes (oral LD<sub>50</sub>) Based on available data the classification criteria are not met.

Acute toxicity - dermal

Notes (dermal LD<sub>50</sub>) Based on available data the classification criteria are not met.

Acute toxicity - inhalation

Notes (inhalation LC50) Based on available data the classification criteria are not met.

Skin corrosion/irritation

**Skin corrosion/irritation** Repeated exposure may cause skin dryness or cracking.

Serious eye damage/irritation

Serious eye damage/irritation Causes serious eye irritation.

Respiratory sensitisation

**Respiratory sensitisation**Based on available data the classification criteria are not met.

#### Linx Green mixed base ink 3124

Skin sensitisation

**Skin sensitisation** Based on available data the classification criteria are not met.

Germ cell mutagenicity

**Genotoxicity - in vitro**Based on available data the classification criteria are not met.

Carcinogenicity

Carcinogenicity Based on available data the classification criteria are not met.

Reproductive toxicity

Reproductive toxicity - fertility Based on available data the classification criteria are not met.

Reproductive toxicity -

Based on available data the classification criteria are not met.

development

Specific target organ toxicity - single exposure

STOT - single exposure STOT SE 3 - H336

Specific target organ toxicity - repeated exposure

STOT - repeated exposure Based on available data the classification criteria are not met.

Aspiration hazard

**Aspiration hazard**Based on available data the classification criteria are not met.

General information The severity of the symptoms described will vary dependent on the concentration and the

length of exposure.

**Inhalation** Gas or vapour in high concentrations may irritate the respiratory system. Symptoms following

overexposure may include the following: Headache. Fatigue. Nausea, vomiting. Drowsiness,

dizziness, disorientation, vertigo.

Ingestion Liquid irritates mucous membranes and may cause abdominal pain if swallowed. Nausea,

vomiting. Diarrhoea.

Skin contact Product has a defatting effect on skin. Repeated exposure may cause skin dryness or

cracking.

**Eye contact** Irritating to eyes. Vapour or spray may cause temporary (reversible) eye damage.

Route of exposure Inhalation Skin and/or eye contact Ingestion

Acute toxicity - fish LC₅o, 96 hours: 1.6 mg/l, Oncorhynchus mykiss (Rainbow trout)

### 12.2. Persistence and degradability

Persistence and degradability No data available.

## 12.3. Bioaccumulative potential

**Bioaccumulative potential** No data available on bioaccumulation.

Partition coefficient log Pow: -0.24 Information given is applicable to the major ingredient.

12.4. Mobility in soil

**Mobility** The product contains organic solvents which will evaporate easily from all surfaces.

# 12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB

assessment

This product does not contain any substances classified as PBT or vPvB.

#### 12.6. Other adverse effects

Other adverse effects None known.

# SECTION 13: Disposal considerations

# 13.1. Waste treatment methods

General information When handling waste, the safety precautions applying to handling of the product should be

considered. Materials such as cleaning rags and paper wipes that are contaminated with flammable liquids may self-ignite after use and should be stored in designated fireproof

containers with tight-fitting, self-closing lids.

Disposal methods Dispose of waste to licensed waste disposal site in accordance with the requirements of the

local Waste Disposal Authority. Dispose of waste via a licensed waste disposal contractor.

Waste class European Waste Catalogue Number (2000/532/EC): 08 03 12

#### **SECTION 14: Transport information**
